

Tallinn Health Care College International Week “Innovation and Research”

12 May – 16 May 2014

Känu 67, 13418, Tallinn and
Kukruse, Kohtla-Järve, Lehe 12, Estonia

Our international week “Innovation and Research” welcomes teachers, staff members and professionals from the field of health and welfare from our local and international partner institutions. We offer you an opportunity to learn more about our college and Estonia, network with international colleagues, make plans for future cooperation, teach and share experiences at the Tallinn Health Care College as well as participate in the cultural programme. If you have student mobility with us, it is a good opportunity to familiarize yourself with our conditions, practical placements and meet our lecturers and staff members.

The topics of the international week include:

Language Centre innovation in language learning – blended learning

Chair of Pharmacy evidence-informed decision

Chair of Dental Technology properties of materials used in dental technology

Chair of Occupational Therapy experiences of participating in an intensive programme

Chair of Midwifery internationalization in practical placements

Kohtla-Järve Structural Unit student and teacher mobility between Estonia and Latvia

Department of Vocational Education finding possibilities to continue providing education in Russian; tightening cooperation with partner institution abroad

International Office the positive outcomes and challenges of internationalization in higher education institutions
